

Restriction of certain Hazardous Substances (RoHS/RoHS 2/RoHS 3)

IHSE RoHS/ RoHS 2/RoHS 3 Statement

The devices comply with the Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2, RoHS II, RoHS III). We hereby certify that we do not deliver any products containing any harmful substances according to the German Chemicals Prohibition Ordinance (ChemVerbotsV). The device labels carry a respective CE marking and any change to this situation will be announced immediately.

All electronic and electrical equipment and components placed on the market must not contain any of the following elements in quantities higher than the latest regulation or industry standards permit:

WEEE, July 04, 2012, Directive 2012/19/EU.

RoHS 2.0, Jan 02, 2013, Directive 2011/65/EU.

RoHS 3.0, Mar 31, 2015, Directive 2015/863/EU.

IHSE certifies that all currently manufactured RoHS compliant products comply with the latest Directive (EU) 2015/863, which entered into force on August 6th, 2024.

Oberteuringen, September 23rd, 2024
